

The charter

« By signing this charter, we sincerely commit to follow a progression path to lower the pollution generated by our activities and be in a constructive attitude toward our environment and the respect of the people involved.

- We commit to sensitise our public, partners and team to environmental issues and human respectfulness and promote ideas, solutions and behaviours that will contribute to follow together this path.
- We commit to record our consumption regarding food, waste, energy and transportation after every edition of our events, according to the Green charter for film festivals' calculator.
- We commit to share publicly statistics on our progresses generated by the calculator.
- We commit to write our own charter that fits our needs, ambitions, values and the reality of our event constrains. The charter will be addressed to our team, our partners and our public. »
